"The Day That Tonopah Played Ball" is a boost for Tonopah all through its pages, and this is the . time to send out boosting material.

There has been a turn for the bet ter in the stock market. Let's keep it going while we may. The time is not far distant when money must loosen up in the East. Tonopah is the best camp in all Nevada, and the field for speculation is as good as it ever was. All that is necessary is to bring the fact before the people. The name of the camp is a household word throughout the whole country, but there are many who are of the opinion that we have reached that stage of development where we do not need any more capital for other properties.

A perusal of the pages of "The Day That Tonopah Played Ball" gives an idea to the outside world that we have plenty of people here who are interested in mining; that we are not dead, not even sleeping. The souvenir shows the business houses, the handsome residences, the stable nature of the town.

The book was compiled, printed and published here. That in itself is the best kind of an ad that we could get. And we want advertising; all the publicity possible, and Tonopah can stand behind it all.
